Why do ordinary people who used to engage in domestic and leisure activities for free now try to make a profit from them? How and why do people commodify their free time? This book explores the marketization of blogging, cooking, craftwork, gardening, knitting, selling second-hand items, sexcamming, and more generally the economic use of free time. It outlines how the development of web platforms, the current economic context and post-Fordist values can account for this extension of market and labor. Drawing on a range of interviews, ethnographic observations, and quantitative surveys, the contributors question the empowering effects of commodification, with a specific focus on how gender and class inequalities affect the social meanings of extra money. Ultimately, the collective findings
demonstrate how commodification pervades even the most mundane social activities. This research will be invaluable to scholars and students with a focus on gender and digital sociology, the sociology of work and labour, and the marketization of leisure.

“IT’S TIME! They have my cattle and now they have one of my boys. Range War begins tomorrow at Bundy Ranch.” These words, pounded out on a laptop at Cliven Bundy’s besieged Nevada ranch on April 6, 2014, ignited a new American revolution. A cross the country, a certain type of citizen snapped to attention: This was the flashpoint they’d been waiting for, a chance to help a fellow American stand up to a tyrannical and corrupt federal government. Up in Arms chronicles how an isolated clan of American Mormons became the guiding light—and then the outright leaders—of America’s Patriot movement. The nation was riveted in 2014 when hundreds of Bundy supporters, many of them armed, forced federal agents to abandon a court-ordered cattle roundup. Then in 2016, Ammon Bundy, one of Cliven’s 13 children, led a 41-day armed takeover of the Malheur National Wildlife Refuge in Oregon. Those events and the subsequent shootings, arrests, and trials captured headlines, but they’re just part of a story that has never been fully told. John Temple, award-winning journalist and author of American Pain, gives readers an unprecedented and objective look at the real people and families at the heart of these highly publicized standoffs. Up in Arms offers a prescriptive narrative populated by rifle-toting cowboys, apocalyptic militiamen, undercover infiltrators, and the devout and charismatic Bynuds themselves. Neither mainstream nor conservative media outlets have contextualized the religious, political, environmental, and economic factors that set the stage for these events. Up in Arms provides a framework for understanding this diverse collection of American rebels who believe government overreach justifies the taking up of arms.

This book introduces a new Human Factors concept that includes the air passenger as an integral part of the aviation system. It develops a revised Reason Model on Human Error that applies its principles to the prevention of passenger misconduct, with a focus on organizational issues affecting the interface between the air passenger and the airlines. It also builds a synergistic model addressing the traditional conflict between safety and service objectives. Incorporating a diffusion of air traveller tension, a Passenger Risk Management Model leads to a strategic approach for reducing incidents of Air Rage.

It is perhaps obvious to state that terrorists cannot plan and carry out attacks in the United States if they are unable to enter the country. Yet prior to September 11, while there were efforts to enhance border security, no agency of the U.S. government thought of border security as a tool in the counterterrorism arsenal. Indeed, even after 19 hijackers demonstrated the relative ease of obtaining a U.S. visa and gaining admission into the United States, border security still is not considered a cornerstone of national security policy. We believe, for reasons we discuss in the following pages, that it must be made one. Fasten Your Seat Belts! is the first history of an airline to be told from the view point of its cabin crew. Through hundreds of interviews, Valerie Lester has encouraged Pan Am’s flight attendants to recount their personal dramatic, tragic, comic & heroic stories, many of which deserve to take an honored place in the annals of air transport history. She includes accounts of the heroic deeds of the cabin crews in such incidents as the 1947 crash in the Syrian desert; the terrorism in Cairo & Rome; the last flight from Saigon; the holocaust at Tenerife; & the siege at Karachi. There are tales of the first stewards & their experiences during World War II; Pan Am’s brave & resourceful first stewardesses; the first round-the-world flights (both planned & unplanned); the White House Press charters; the advent of jets--& of bigger jets; Desert Storm; & Pan Am’s final, heart-rendering flight. Until now, the important role that flight attendants have played in the history of civil aviation has been poorly served. Here, at last, is a book that redresses the balance.

Guides you through the entire cabin crew selection process to ensure the highest probability of getting the job. Every aspect is described in detail, complete with numerous examples--P. [4] of cover.

How and why accidents happened ? How pilots manage and handle in-flight emergencies ? How cabin crew deal with various challenging situations ? How to make money from the markets and secure your financial future ? Written by an AirAsia captain and former Singapore Airlines cabin crew, the book brings readers to explore the aviation world and the world of finance. It shares many of their fascinating stories in their respective years of flying. The book also discusses the many misconceptions about the airline industry the general public have. In the final part of the book, the author shares his investing strategies as a licensed investment adviser.

Get ready for takeoff. The life of the flight attendant, a.k.a., stewardess, was supposedly once one of glamour, exotic travel and sexual freedom, as recently depicted in such films as Catch Me If You Can and View From the Top. The nostalgia for the beautiful, carefree and ever helpful stewardess perhaps reveals a yearning for simpler times, but nonetheless does not square with the difficult, demanding and sometimes dangerous job of today's flight attendants. Based on interviews with over sixty flight attendants, both female and male labor leaders, and drawing upon his observations while flying across the country and overseas, Drew Whitelegg reveals a much more complicated profession, one that in many ways is the quintessential job of the modern age where life moves at record speeds and all that is solid seems up in the air. Containing lively portraits of flight attendants, both current and retired, this book is the first to show the intimate, illuminating, funny, and sometimes dangerous behind-the-scenes stories of daily life for the flight attendant. Going behind the curtain, Whitelegg ventures into first-class, coach, the cabin, and life on call for these men and women who spend week in and week out in foreign cities, sleeping in hotel rooms miles from home. Working the Skies also elucidates the contemporary work and labor issues that confront the modern worker: the demands of full-time work and parenthood; the downsizing of corporate America and the resulting labor lockouts; decreasing wages and hours worked; job insecurity; and the emotional toll of a high stress job. Given the events of 9/11, flight attendants now have an especially poignant set of stressful concerns to manage, both for their own safety as well as for those they serve, the passengers. Flight attendants, originally registered nurses charged with attending to passengers' medical needs, now find themselves wearing the hats of therapist, security guard and undercover agent. This last set of tasks pushing some, as Whitelegg shows, out of the business altogether.

Denys Arcand is best known outside Canada for three films that were nominated for Academy Awards for Best Foreign-Language Film: The Decline of the American Empire (1986), Jesus of Montreal (1989), and The Barbarian Invasions (2003), the last of which won the Award.Yet Arcand has been making films since the early 1960s. When he started making films, Quebec was rapidly transforming from a relatively homogeneous community, united by its
Catholic faith and French language and culture, into a more fragmented modern society. The Films of Denys Arcand sheds light on how Arcand addressed the impact of these changes from the 1960s, when the long-drawn-out debate on Quebec's possible separation from the rest of Canada began, to the present, in which the traditional cultural heritage has been further fragmented by the increasing presence of diasporic communities. His career and films offer an ideal case study for exploring the contradictions and tensions that have shaped Quebec cinema and culture in a period of increasing globalization and technological change.

Flying has been my dream since before I can remember literally. My Aunt Odette tells me that when I was three years old, she took me with her to the Port-au-Prince International Airport to pick someone up, and when I saw an airliner up close for the first time, I excitedly yelled out, "I want to drive that!" I don't recall that event, but it serves as evidence that my fascination with flying began at a remarkably young age. My first memory of wanting to fly came a few years later at the age of seven. I was on my very first flight, from Port-au-Prince to New York City, where I was going to start a new life in a new country. I remember looking at all the people boarding the airplane and wondering how that "big silver bird" was going to get us into the air (that silver bird was an American Airlines Boeing 727). To this day, the whole experience is vivid in my mind: being greeted with a smile by the captain at the aircraft entry door, the funny feeling in my stomach as the plane accelerated down the runway, leaping into the air, and my utter disbelief that we didn't drop out of the sky! I was mesmerized by it all, and by the time the plane came to a stop at our gate, my dream had been born I wanted to become an airline pilot. I have been blessed to be living that dream since 1999. It's a dream from which I hope never to awaken. This is the story of the lifelong journey I have taken in realizing that dream. I invite you to come along with me as we go from my birth in Haiti to the present day, as I live my dream every day. You will come with me as I move to America at the age of seven, a country I knew nothing about and whose language I didn't speak, a land that would truly prove to be "the land of opportunity." You will feel my sense of wonder and bewilderment growing up in New York City, trying to understand my new world. You will face my struggles to fit in with the kids in the housing project where my family lived for a decade as Mom and Dad saved money to buy a house. You will meet my parents, who encouraged my dream of flying, and my fifth grade teacher who helped me to see that it was possible not only to dream it, but also to achieve it. It's a story of potential fulfilled, and my family's sacrifices to get me through college and flight school. You will fly with me from my first lesson to my first airline job as a copilot, to the day I earned my four-striper and first heard someone call me "Captain." You will sit with me in the captain's seat as I fly an airline jet over Haiti for the first time, looking down from thirty-eight thousand feet onto the land of my birth where my dream had been born. You will soar with me over the majestic Amazon jungle in Brazil, over the desert-flanked Nile River in Egypt, and the sparkling Mediterranean Sea. You will fly with me through New York City blizzards, Indian monsoons, and Arabian sandstorms. You will travel with me on adventures to Europe, South America, the Middle East, South Asia, the Caribbean, and other parts of the world I used to dream of going to as a child; places that have affected me profoundly and where I left a little part of myself. I have seen all these things through the eyes of the seven-year-old boy from Haiti that I was and in many ways, still am; the little boy who had a sense of just how incredible the world and life are, who dreamt of a life of worldwide adventure, and was blessed to have his dream come true. That is the reason for the title of this book, "The Seven Year-Old Pilot," because even after years of flying around the world, in many ways, I still feel like that little boy, and I always try to approach my travels and my life with his sense of gratitude, amazement, and awe. I truly believe that every one of us has life experiences and lessons worth sharing that can inspire, enlighten, teach, and benefit others because we have all lived this life.
